Foster Grandparent Program- Nancy Mahlow She was talking about the Foster Grandparent program. They are desperate need of volunteers. You are paid and it does not hurt any other forms of money you receive such a social security or a pension. It is for at risk, special needs, and other kids who may just need a little extra help. You are assigned to a teacher in a classroom that has asked for some help with 1 or more kids. It can be for other areas as well such as churches, St Vincent's etc. You must be 55 or older. There are income requirements but no educational requirements. Please share this with others.

Treasurers Report- Theresa- We have about \$2400 in our account.

Garden on Michigan Ave- Nancy is working very hard on it. She has put over 29 bags of mulch down in the area. She has the west side done and will keep working on it. Nancy will speak with J Feldman about touching up the Memorial rocket soon. It was requested that Nancy let people know when she is going to work on it so they can try to help as well.

Lansing City Council- Jody Washington Sorry she was late she was at a meeting with Ingham County Treasurer about housing. Her month 1st Contact will be this Saturday at 10:30-noon BWL Depot. There will not be one in July. Someone asked her about where we are at the attorney situation? It is frustrating situation. They have a council person that will not vote for a outside council to look into. The interim attorney is now saying he can be the only one who can hire an outside attorney. A HUD complaint has been filed against 4 council members. It will be hard to give out incentives for developments with the complaint hanging over their heads. There is talk of moving the Scott house to new location so the substation can go on that spot. Lots of items going on that is causing issues to arise for all the council and administration.

Meeting adjourned at 8:03pm.

Respectfully submitted by

Denise Kelley
